Component Grade and Comments	
A. Implementation of Application	
User Interface and proper controls used for designing	missing controls in the interface
Manual data entry or import from csv	not properly saved or imported data
Data Validation	Only basic validation
Enrollment Report & weekly report in tabular format	very poorly executed reports and data not shown accurately
Course wise enrollment report & Chart display	Very poorly designed and only contains one report format with in appropriate data
Algorithm used for sorting & proper sorting of data	Default sorting provided by .net is used
B. Documentation	
User Manual for running the application	User Manual is below average. Is textual only.

Application architecture & description of the classes and methods used	Missing Component
Flow chart, algorithms and data structures used	Missing Component
Reflective essay	Very poorly written

C. Programming Style

Clarity of code, Proper Naming convention & comments	Code is poorly written and lacks comments
System Usability	very poorly developed application

Overall Grade:	D	D
-----------------------	----------	----------

Overall Comment:

Code should be self explainable with less comments. Need some proper naming of the component and require to add comments on required area. Import feature is completely missing. Architecture, workflow and flow chart missing.

In overall the code is working and all the functionality seems working.
