| Component Grade and Comments | |
|--|---|
| A. Implementation of Application | |
| User Interface and proper controls used for designing | User Interface is complete but not separated and have proper use of controls |
| Manual data entry or import from csv | data types not taken care of and not properly executed functionally. |
| Data Validation | missing most of the validation |
| Enrollment Report & weekly report in tabular format | very poorly executed reports and data not shown accurately |
| Course wise enrollment report & Chart display | Very poorly designed and only contains one report format with in appropriate data |
| Algorithm used for sorting & proper sorting of data | Sorting is implemented for not function properly |
| B. Documentation | |
| User Manual for running the application | User Manual is average. Includes description for all interfaces |

| | |
|--|--|
| Application architecture & description of the classes ad methods sued | average work with very limited explanation of the classes and methods used |
| Flow chart, algorithms and data sctructures used | average work with very limited explanation and missing diagramatic representation. |
| Reflective essay | Average work with un clear learnings, experience or findings. |

C. Programming Style

| | |
|--|---|
| Clarity of code,Popper Naming convention & comments | very poorly written code and no comments at all |
| System Usability | very poorly developed application |

| | | |
|-----------------------|-----------|-----------|
| Overall Grade: | E+ | E+ |
|-----------------------|-----------|-----------|

Overall Comment:

Code should be self explainable with less comments. Need some proper naming of the component and require to add comments on required area. Flaw in the process of submission of coursework.

In overall the code is working and all the functionality seems working and system can be used
